ANTI-MICROBIAL AIRLITE®  
WITH WE-FRESH

**weFresh**  
for fresher living

# GERM-RESISTANT RESTRAINTS AND SPECIFICATIONS

Schroth has partnered with We-Fresh to add an antimicrobial treatment as an optional feature of its passenger lapbelt and crew restraint webbing. Easily applied during the manufacturing process, We-Fresh is an invisible treatment designed to prevent bacteria from growing, spreading and surviving on textiles and surfaces, and therefore also preventing odours.

This will keep seatbelts fresher for longer, reducing the need for intensive cleaning and extending product lifespan. The We-Fresh treatment never wears or washes out, and is hypoallergenic, vegan friendly, free from plastic and suitable for contact with sensitive skin. We-Fresh is designed to guard against pathogens such as MRSA, E-coli, Salmonella and listeria.

<b>Product</b>	SCHROTH Anti-Microbial Airlite® with We-Fresh
<b>Belt Weight (Compared to Standard Airlite®)</b>	No Change
<b>Seat Connection / End Fitting</b>	Compatible for all Airlite® configurations
<b>System Weight (Compared to Standard Airlite®)</b>	No Change
<b>Certification</b>	TSO / ETSO-C22g
<b>Rated Strength</b>	13.3 kN (3,000 lbs)
<b>Available Opening Angles</b>	30° / 90°
<b>Available Accessories</b>	Extension Belt, Demo Belt and Infant / Utility Belt
<b>Anti-Microbial Effectiveness</b>	99.9 % Effectivity for Life of Belt
<b>Anti-Microbial Primary Pathogen Protection</b>	MRSA, E-Coli, Salmonella, and Listeria
<b>COVID-19 Protection Effectiveness</b>	Under USA CDC / FDA Review for Approval
<b>Additional Benefits</b>	Hypoallergenic, Vegan Friendly, Suitable for Sensitive Skin
